

Core Description: (Abstract)

Human senses.

The purpose is to help children better understand human senses. This lesson can be divided in to 3 different lessons.

Progress:

Teacher introduce human senses: touch, hearing, sight, smell and taste.

In lessons children are going to discover different human senses: touch, hearing, sight:

1. First of all they need to build a basic robot.
2. Then they need to attach the wire with the touch/ ultrasonic / sound sensor.
3. In the end they need to program the robot.

What type of resource is this?

Lego Education MINDSTORMS
Education EV3 Core Set
