# TECHNOLOGIES FOR SPECIAL USES

# FOR ALL KINDS OF WORK WE USE ALL KINDS OF MACHINES

**Some of them dig, some of them transport soil, others push or lift.**

**These kind of machines are big and usually are used for big jobs and obviously have a lot of power.**

**The biggest excavator in the world is called “Big Muskie” it weights 13 000 tons, it travels by massive feet and it was made in 1969 in USA.**

**We're going to create one  
of them:**

**EXCAVATOR**
